Is this schedule flexible: Yes No Somewhat- explain: Days provided may be flexible, but only wants services after 1 p.m.

The best way to communicate with me is: Talk to me. ZR communicates very well, his wants and needs.

Things I like to do: ZR is into technology, photography and videography. Enjoys going out and exploring, experiencing new things and anywhere he can put his skills around photography and videography into good use.

Things I need help with: ZR is very independent. He really would like to remodel his room and would like someone to help him complete the task.
